

## **STUDENT DEVICE ACCEPTABLE USE POLICY**

### **Student AUP**

This Student Acceptable Use Policy is intended to promote responsible use and protect students and the school from liability resulting from the misuse of a District-issued device (i.e., laptop or tablet, and any related accessory provided by the District), or District provided web-based service (i.e. an education application) (collectively referred to herein as “District-issued device” or “District-issued devices”).

Technology, on or off-campus, must be used in accordance with the mission and philosophy of CUSD. District-issued devices, assigned to a particular student, shall remain the property of CUSD. Therefore, there is no assumption of privacy when using a District-issued device. CUSD reserves the right to inspect all District-issued devices at any time during the school year without the prior authorization of a student or the student’s parent, or legal guardian. Administration and faculty reserve the right to monitor, modify, lock, erase, search, and/or confiscate the District-issued device at any time. In accordance with District and school policy, misuse of the District-issued device may result in disciplinary action up to and including expulsion.

To maintain the integrity of the District-issued device program, all students and parents/guardians must acknowledge and agree to the following conditions of use:

### **I. Family Responsibilities:**

1. District-issued devices that are loaned are to be presented to your child’s respective teacher at the end of each academic year for updates and routine maintenance. If your student leaves his/her school before the end of the year, s/he must return the District-issued device to his/her teacher as part of the check-out process.
2. Students/parents are solely responsible for the care and security of the District-issued devices they receive. District-issued devices must never be left in an unsecured location or any unsupervised area.
3. Any District-issued device left unattended and found on campus, should be turned into the main office.
4. If the District-issued device is damaged or malfunctions, families must take the device to the school’s main office within 72 business hours for evaluation. In the event that a student is unable to bring the District-issued device to the main office, s/he must contact the site principal via telephone or via email within 72 business hours outlining the nature of the damage or malfunction. Failure to present the District-issued device or notify the main office and/or the principal within the allotted time frame may cause the family to incur the full cost of the repair or replacement and/or lose the privileges of being issued a device, subject to the terms of the Acknowledgement of Receipt.
5. Families are expected to report any problems with the charger and/or any district issued accessories including covers within 72 business hours. At the end of the year, students are expected to return the same charger, cable, and any other district issued accessories in working condition.
6. If the District-issued device is lost or stolen, the families must report the incident to the main office and/or principal and the Technology Department within 72 business hours. In the case of theft, the family must also file a police report. Families are responsible for replacing the lost or stolen student device at their own cost, subject to the terms of the Acknowledgement of Receipt. (see chart below)
7. If a student damages the District-issued device (excluding reasonable wear and tear, such as minor scratches on the casing), the families are responsible for the full expense of repairing or replacing the device, subject to the terms of the Acknowledgement of Receipt.
8. Families are not permitted to repair, alter, modify, or replace District-issued devices without express written authorization from the District. This includes, but is not limited to: replacing;

writing or drawing on the District-issued device; or affixing stickers or labels to the District-issued device.

9. Under no circumstance will CUSD replace or repair a District-issued device without the required payment or paperwork from the family.
10. The District does not provide backup services for any District-issued devices. Students should store important documents where backup is provided, such as District-provided file storage locations. District technicians will not attempt to recover lost data on district issued equipment.

### II. General Expectations:

1. Students may not remove or circumvent the management system installed on each District-issued device. This includes removing restrictions or “jailbreaking” the device.
2. While working on a District-issued device on campus, students must stay connected to the CUSD wireless network and shall not turn off the District-issued device’s wireless setting or connect to other wireless networks unless otherwise instructed by District staff.
3. Students are expected to have their District-issued devices at school each day and fully charged. The school is not responsible for charging the device. If a District-issued device is left at home or is not properly charged, the student remains responsible for completing all coursework.
4. Loaner District-issued devices will not be available. Forgetting to bring the District-issued device to school does not excuse or exempt the student from any class work rendered late or incomplete. Repeat offenses may result in disciplinary action.
5. Students may not change the pre-configured District-issued device’s name, ip-address or other identifying information.
6. Students may not remove or alter the “asset tag” or “name tag” located on the District-issued device.
7. Memory space on District-issued devices is limited. Academic content takes priority over personal files or applications (apps). In the case of a memory space conflict, personal files, digital media, and apps must be removed from the District-issued devices at the student’s expense.
8. Malfunctions or technical issues are not acceptable excuses for failing to complete an assignment. Please contact your teacher immediately with any issues regarding homework. The District reserves the right to determine whether any work completed prior to the malfunction will be considered for academic credit on a case-by-case basis.
9. Unless notified by the CUSD Technology Department, the student is expected to keep the administrator’s settings on the District-issued device’s current operating system and apps as set by the Technology Department.
10. Overall, students shall adhere to school’s expectations when using the District-issued device.

### III. Customization:

1. Due to the potential for misuse of District-issued devices, families will not be permitted to add media (music, images, and video files), or install apps from the Internet. Any exceptions granted will be made in writing by an authorized administrator on a case by case basis.
2. Students/Parents are not permitted to adjust the personal settings (i.e., background images, app icon arrangement, multi-touch swipe settings, etc.) of a District-issued device without the District’s or site staff’s prior written authorization.

3. General settings established by the Technology Department (i.e., certificates, security, system preferences) of a District-issued device may not be changed or manipulated at any time.
4. If a student receives a CUSD cover/sleeve as an accessory to a District-issued device, they are not permitted to customize the cover/sleeve.
